

LEGO® SERIOUS PLAY®
REAL-TIME CHANGE®
CERTIFICATION

Get Ahead of the curve with Real-Time Change®
co-developed with Prof. Johan Roos and exclusively
offered by Intrface.

A sophisticated framework (which I expected, knowing the LSP method), but what I like about it is the flexibility and adaptability. It is less of a process than other methodologies to facilitate change.

- WILLY STUDER
ORGANIZATIONAL DEVELOPMENT CONSULTANT
& EXECUTIVE COACH, SWITZERLAND.

WHY A NEW METHOD?

Change initiatives in organizations often fail because people are neither committed to the change, nor convinced they can implement it successfully. This is a costly problem for most leaders and organizations. ***This just changed, for the better.***

The original LEGO® Serious Play® method is a groundbreaking tool for creating psychological safety, generating insights, and aligning teams.

Real-Time Change© builds on this foundation by introducing structured frameworks for enhancing change readiness, navigating complex eco-systems, and translating insights into actionable strategies to drive sustainable change outcomes. **It provides a broader application for facilitators working with dynamic challenges."**

Inthrface exclusively offers this new LSP method (the first one in two decades) designed to help people in organizations constructively getting ready for and dealing pro-actively with change.

THE DEVELOPERS

INTHRFACE

Chief Executive trainer
Micael Buckle, CEO of
Inthrface

and

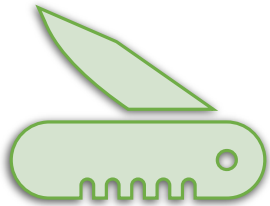

Professor Johan Roos, co-
inventor and co-author of the
original LEGO® SERIOUS
PLAY® method in 1999,
have developed Real Time
Change®.

Learn from the developer himself, Micael Buckle will facilitate this course. His expertise as a co-developer of the Real Time Change® method provides participants with a unique opportunity to gain insights directly from the source.

WHY SHOULD CERTIFIED FACILITATORS CHOOSE REAL-TIME CHANGE©?

If you're already trained in the original LEGO® Serious Play® (LSP) method, this certification is the perfect next step to expand your skills, enhance your offerings, and differentiate yourself in a competitive market.

Exclusive New Tools and Exercises:

Unlock a set of research-backed exercises designed to cultivate readiness for change and strategic preparedness.

Wider Applications:

Go beyond metaphor building—lead sessions that focus on change readiness, strategic planning, future analysis, and ecosystem modeling.

A Proven Framework:

Built on robust theories in human development, sensemaking, and crisis management, Real-Time Change© equips you with cutting-edge facilitation methods.

Strategic and Action planning:

Guide participants through structured processes to create actionable plans and informed strategic decisions.

HOW WILL THIS CERTIFICATION ENHANCE YOUR FACILITATION TOOLBOX?

- **Broaden Your Expertise:** Add new dimensions to your workshops, such as preparing organizations for change, fostering psychological safety, building dynamic ecosystems and facilitating strategic and action planning to drive informed decisions for long-term success.
- **Expand Your Reach:** Offer your clients a broader range of impactful sessions tailored to innovation, transformation, and strategy development.
- **Stand Out in the Market:** Showcase your exclusive Real-Time Change© certification, backed by the endorsement of Prof. Johan Roos, as a hallmark of quality and expertise.

WHAT WILL YOU GET?

You will be trained thoroughly in two new cool concepts – which will give you a competitive advantage and new offerings to your clients.

01

READINESS FOR CHANGE

is a set of LSP exercises designed to increase people's commitment and ability to implement change.

02

CONCEPTUAL FOUNDATION:

Based on an empirical research project (2018-2020) about readiness for change, which draws on theories from strategic management, organization studies, and psychology.

03

YOU WILL LEARN ABOUT

the importance of grounding group interventions in participants' unique motivation, psychological safety, and group cohesion.

04

YOU WILL BE ABLE TO

facilitate shorter LSP sessions that cultivate the key drivers for the participants' readiness for change.

01

REAL TIME CHANGE®

is a new version of the LSP method designed to help people in organizations to prepare for change.

02

CONCEPTUAL FOUNDATION

Grounded in social science concepts, models, and theories of human development, sensemaking, crises management, and practical wisdom theories.

03

YOU WILL LEARN ABOUT

the benefits of striking critical balances that will impact the change, and the benefit of conceptualizing these in context of current and future eco-systems.

04

YOU WILL BE ABLE TO

confidently design, facilitate and follow-up longer LSP sessions for preparing and implementing change in organizations.

WHAT ELSE WILL YOU GET?

A certificate and endorsement by Prof. **Johan Roos**, co-inventor of the LEGO® SERIOUS PLAY® method, adding credibility and prestige to your facilitation credentials.

Extensive training in and **experienced-based learning** of the newest LEGO® SERIOUS PLAY® method.

An extensive and **exclusive facilitator manual** that covers both LSP exercises and theory, supplemented with experienced based tips and tricks on how to use the newest LSP application.

A set of **newly designed exercises** that complement your LEGO® SERIOUS PLAY® skills building toolbox.

Your **personal digital badge** to market your certification and boost your professional profile.

WHY INT/RFACE?

INT/RFACE

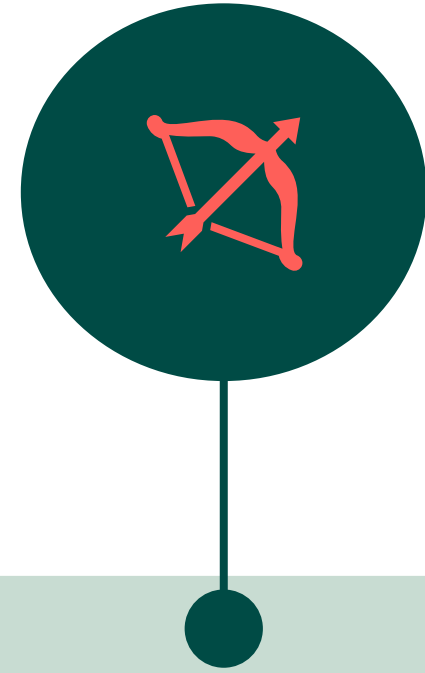

Our ambition is simple: to train the best LEGO® SERIOUS PLAY® Facilitators in the world.

This is **powered by world - class facilitators** with experience of more than 2000 LEGO® SERIOUS PLAY® workshops worldwide and the training of hundreds of facilitators.

Prof. Johan S. Roos endorses this certification course, making Inthrface the only provider in the world whose courses receive a **quality label** from one of the co-inventors of the LEGO® SERIOUS PLAY® methodology.

Inthrface (Denmark) has been involved in the use and development of the LEGO® SERIOUS PLAY® (LSP) method since the very beginning. We bring together this knowledge and experience to design and deliver relevant, realistic and practice-oriented training courses.

THE CONTENT

The LEGO® SERIOUS PLAY® Real Time Change® facilitator training consists of four intense days focusing on the foundation of the method, necessary warm-up exercises, effective group work and debriefing, and how you can apply it to create value. The training composes of 4 main parts:

PART 1

READINESS FOR CHANGE

We create the needed skills, mindset and environment to deal with change in a constructive way.

PSYCHOLOGICAL SAFETY

MOTIVATION

COHESION

KNOWLEDGE CREATION

ENGAGEMENT

READINESS FOR CHANGE

PART 2

CURRENT ECOSYSTEM

We build and co-create a detailed model of your current ecosystem comprising of the following components: Internal and external perspectives – value perspectives – change factors – key change patterns.

The eco-system is constructed in relation to the following 3 key balances:

Finally, we test how resilient the ecosystem is towards change and identify key change and success indicators.

PART 3

FUTURE ECOSYSTEM

We start the construction of the future ecosystem by identifying key indicators of both the future and future trends.

We then build and co-create a detailed model of a future ecosystem and your role within it – striking the right balance.

Finally, we create a solid change strategy and identify the underlying framework and principles that will ensure a successful change.

PART 4

FACILITATION & WORKSHOP DESIGN

We will guide, train and give you the necessary tools, so you can plan and run a tailor-made change workshops.
